DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Charles S. Fish on April 19, 2004.

The application has been amended as follows: in claim 8, lines 2-3, the term "a conductive section having a recess with a slot portion," is changed to --a conductive section having a recess with a slot portion and a balun portion,--.

Terminal Disclaimer

2. The terminal disclaimer filed on October 17, 2003 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted on Application Number 10/023,800 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

3. Claims 1-17 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1-17 is the inclusion of the limitation of a conductive section having a recess with a slot portion and a balun portion. It is this limitation found in each of the claims, as it is claimed in the combination, that

Art Unit: 2821

has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
